SpareBank 1 Alliance Banks – local presence and national integration

The Alliance was founded in 1996 and consist today of 13 banks

SPAREBANK 1 ALLIANCE BANKS

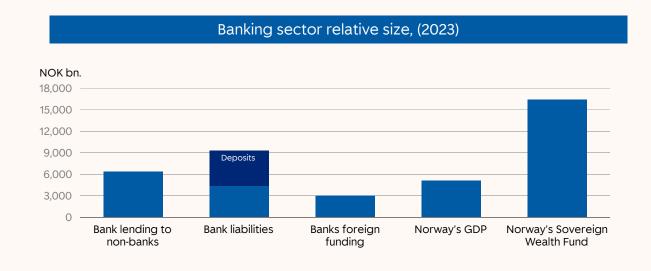

Banks in Norway

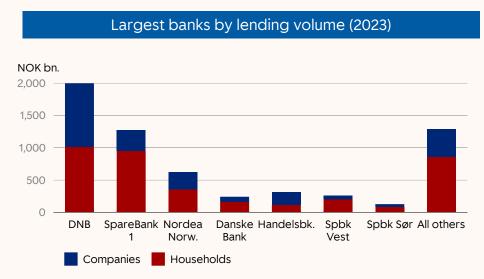

Savings banks (*Sparebank*) 88 Banks, 3 alliances/groups and independent banks

Commercial banks: larger Nordic banking Groups but also smaller banks

- Banks compete for the same customer base, but with larger commercial banks focusing on larger corporations
- A savings bank's strength sits in its local or regional market and in the household and SME sector

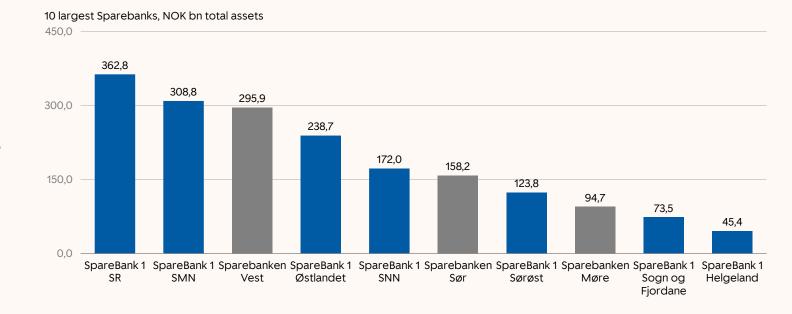

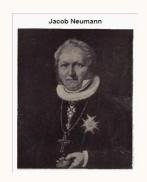

Norwegian savings banks - characteristics

- Norway's first type of bank, founded in the 1820ies, retains local and regional character today
- Sparebanks are universal banks, but only domestic lending, focus on residential mortgage lending
- Savings banks are self-owned institutions, as well as investor owned
- All larger savings banks' equity (capital certificates) are listed on the Oslo stock exchange
- Share of profits provided as gift annually (society dividend) based on the bank's selfowned share of capital

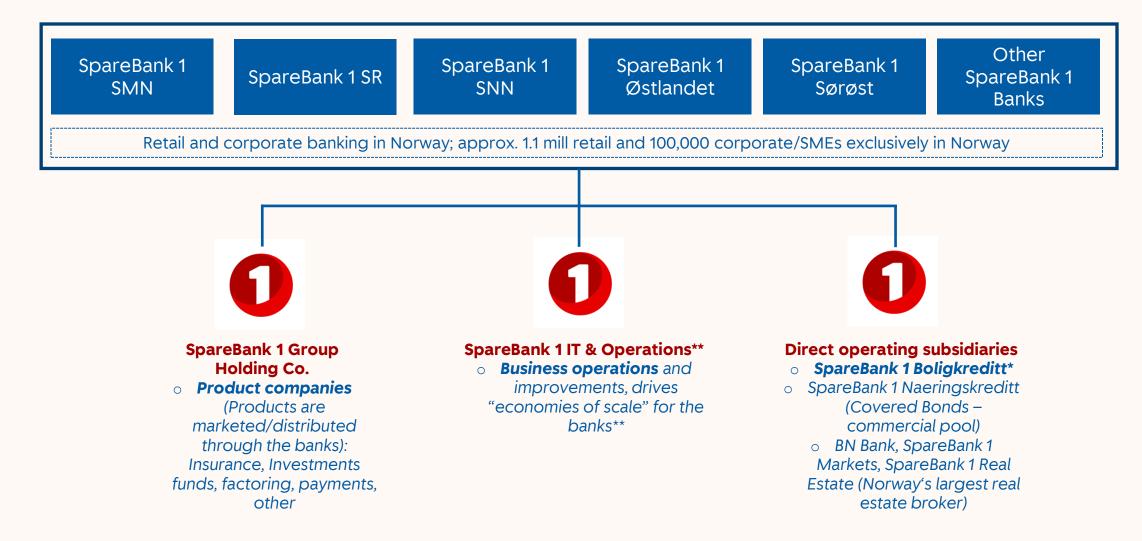

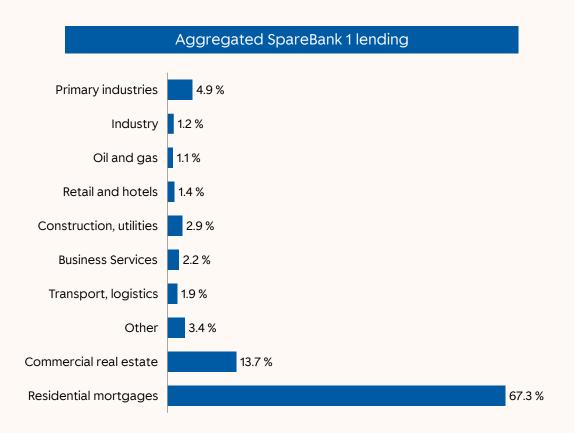

SpareBank 1 Alliance overview

GDP Change

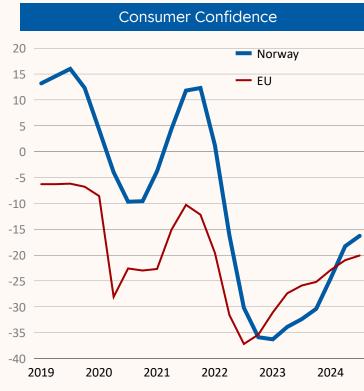

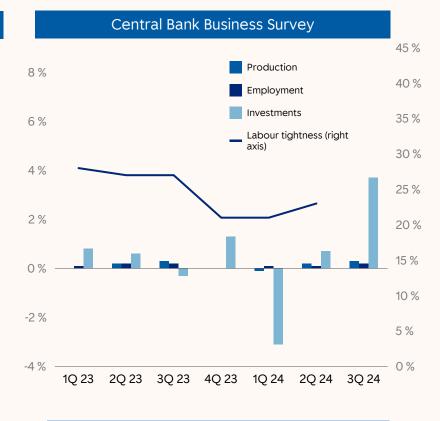

MAKROECONOMIC OVERVIEW

Outlook Indicators

 The PMI manufacturing index reflects current production, new orders, employment, delivery time and goods in storage

- Consumer confidence reflecting quarterly household financial expectations (for themselves and the country) over the next 12 months
- The Norwegian CB business survey reflects activity and expectations ahead. Labour tightness is share of companies reporting this. Other indicators are per cent change.

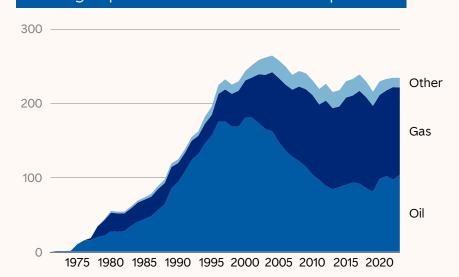

MACROECONOMIC OVERVIEW

Energy

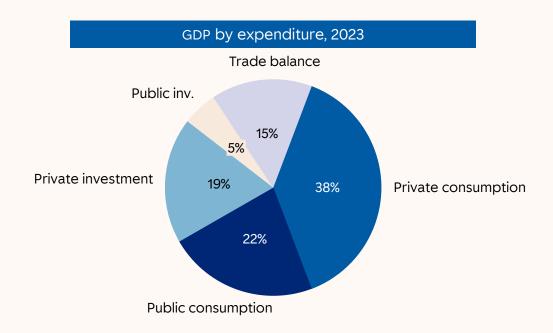

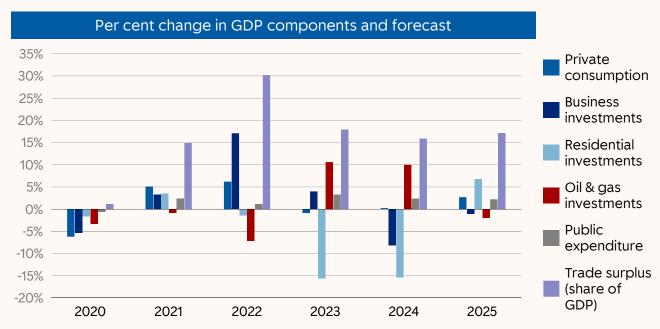

MACROECONOMIC OVERVIEW

GDP Components

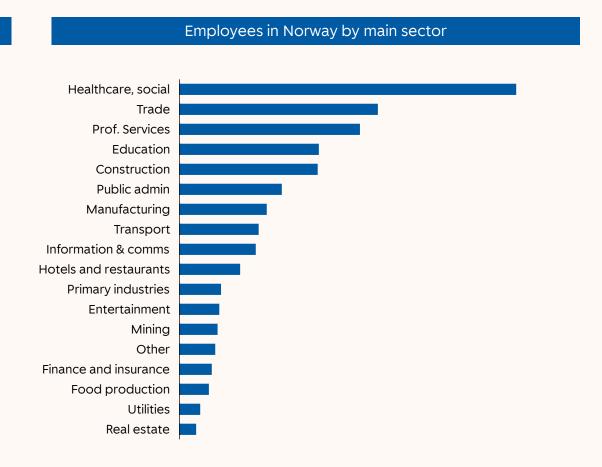

- Oil and gas investments at 15-20% of all investments have large swings which are related to energy markets dynamics and project pipelines as well as special sector tax rules. These are expected to grow following the European energy crisis
- Gross capital formation in Norway is relatively high; important for productivity growth potential

Norwegian Exchange listed companies and employees by sector

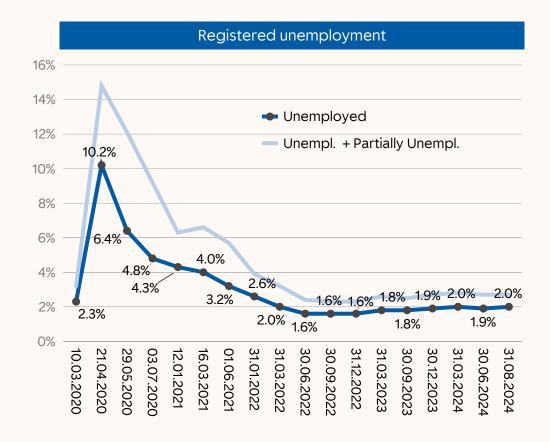

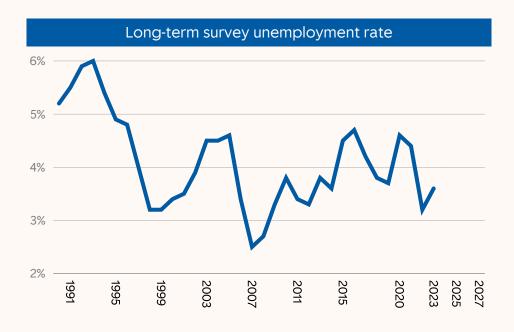

MACROECONOMIC OVERVIEW

Labour Market

 The peak in the survey unemployment rate happened during the recession of the early 1990ies, while the oil price decline in 2014-16 and the covid pandemic caused recent tops

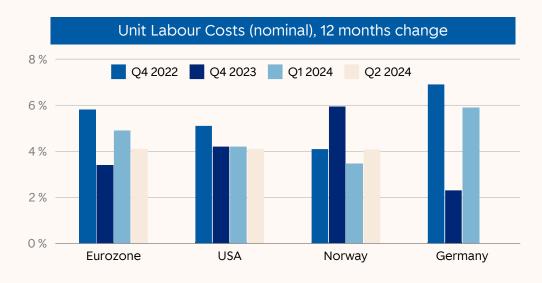

MACROECONOMIC OVERVIEW

Productivity and wages

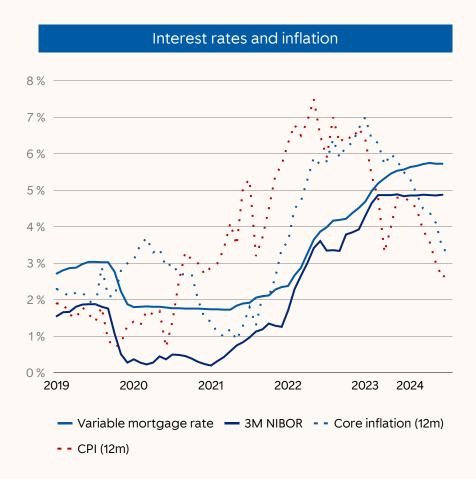

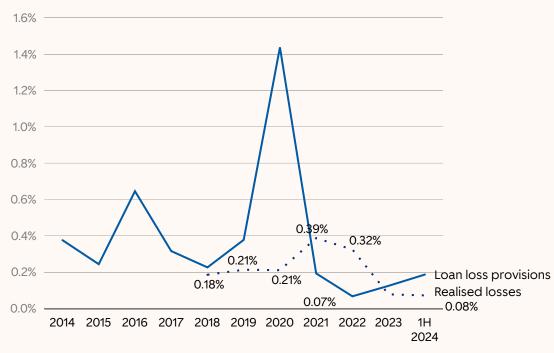

Interest rates, inflation and bank sector losses

Loan provisions and losses aggregated banking sector

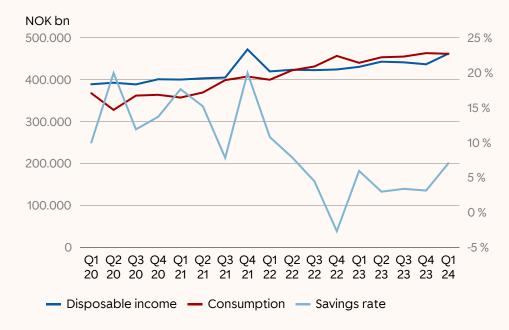

Part years are annualized

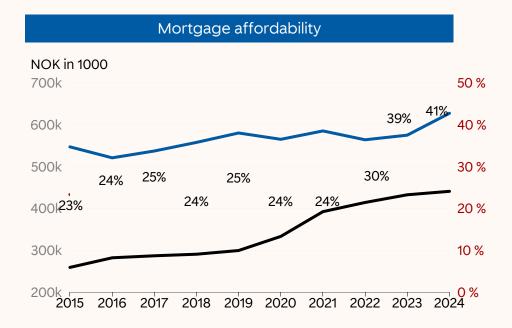

Household sector income, savings and mortgage affordability

Aggregate Household income, consumption and savings

• Savings is the difference in disposable income and consumption, with the addition of pension savings flow not in disp. income

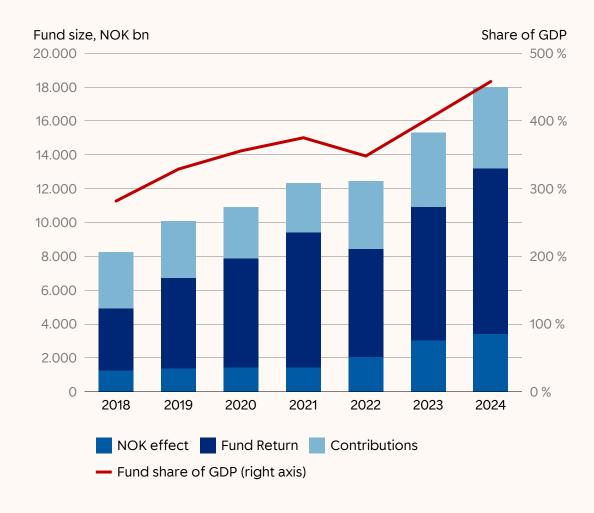

- ••• Share of net disposable income for mortgage servicing (rhs)
- Average net disposable income (after tax and cost of necessities) (lhs)
- Cost of necessities (SIFO model family of 4) (lhs)
- Mortgage servicing is modelled based on 85% LTV of the median valued house, 30 years full repayment, with average annual variable mortgage rates
- Share of income needed for debt service, after deducting the cost of necessities, have risen to an estimated 40% on average for 2023

MACROECONOMIC OVERVIEW

Sovereign Wealth Fund

The spending rule: The gov. budget's non-oil & gas fiscal deficit may be max. 3% of the fund's size – financed by the fund

Fund witdrawals, as a percentage of fund size

The combined government surplus + fund cash income is high due to recent high energy prices

(Budget surplus/deficit + fund income) / GDP

Covered Bonds and Issuers in

- Solid, diversified AAA economy of 5.6 million people, trade and government surpluses, EU inner market (EEA) member
- EU Covered Bond Directive and CRR defines what a covered bond is (EU Premium)
- High homeownership rate
- Mortgages with a history of a well performing asset class
- Sound underwriting also mandated by government regulation for mortgage finance

Covered Bond Pools:

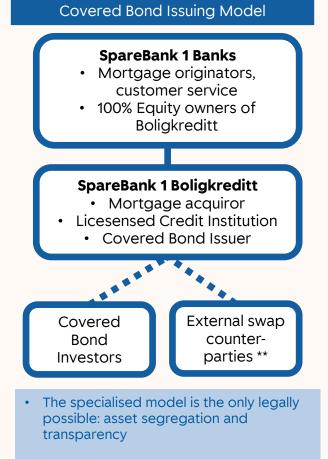

Are all Norwegian issuers and covered bonds the same?

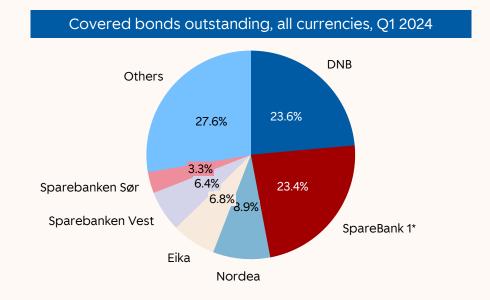

- Hedging policy and Swaps
- Liquidity provisions in the cover pool
- Rules for mortgage cover pool & strength of Alliance model
- Moody's TPI factor and rating buffer
- Size, Regularity and Liquidity

Specialized credit institution

- The word "Boligkreditt" signals residential mortgage loans only
- Swaps hedge FX and interest rate risk, which are limited by law

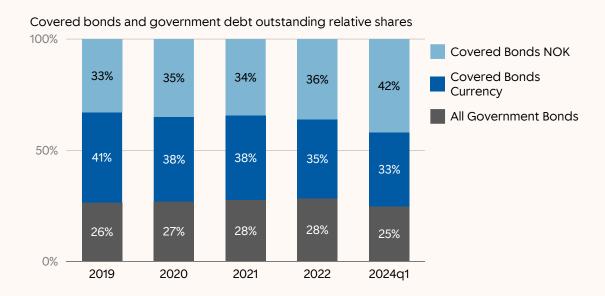

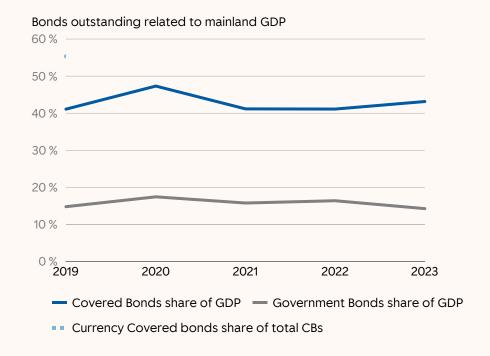

Norwegian covered bond issuers

<u>Bank Name</u>	Number of banks	Covered Bond Issuer	
SpareBank 1	12	SpareBank 1 Boligkreditt (SpaBol)	Large issuer various currencies, SpareBank 1 main CB issuer, SpareBank 1 is Alliance banks brand name
SpareBank 1 SR-Bank	1	SR-Boligkreditt	member of SpareBank 1, issues own label CBs
DNB	1	DNB Boligkreditt	Large issuer various currencies
Nordea	1	Nordea Eiendomskreditt	Only one not called Boligkreditt, NOK-only issuer
Eika	ca. 50	Eika Boligkreditt	Banking alliance of small banks, no co-branding
Verd	18	Verd Boligkreditt	Banking alliance of small banks, no co-branding
Sparebanken Sør	1	Sparebanken Sør Boligkreditt	occasional EUR issuer
Sparebanken Vest	1	Sparebanken Vest Boligkreditt	occasional EUR issuer
Sparebanken Møre	1	Møre Boligkreditt	occasional EUR issuer
Other banks	8	Other "Boligkreditt names"	NOK-only issuers

Covered Bonds in the Norwegian context

Harmonization of covered bonds

EU Regulatory Framework:

Covered Bonds Directive

Directive (EU) 2019/2162

& Capital Requirements Directive

Art. 129 defines preferential risk weights and eligible assets for Covered Bonds

BRRD

Covered Bonds are excluded from bail in

EMIR

The regulation define specific treatmen of cover pool derivatives

LCR Delegated Act
Defines Covered Bonds as liquid assets
Level 1 or 2

Solvency II

Delegated Act – capital requirements for insurance investments in Covered Bonds

Norwegian Covered Bonds framework:

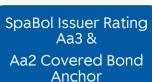

- All of the EU Regulatory Framework in effect
- The Covered Bond Directive (harmonization Directive) became effective in Norway from July 2022
- Key points from the Norwegian harmonised Covered Bond framework:
 - Cover Pool: CRR Art. 129 defines eligible assets. In practice cover pools with only residential mortgages (separate public sector and commercial pools exist)
 - Asset valuation: maximum prudent market value, documented individual assessment by independent person or by statistical models (for residential real estate) Max LTV: up to 80%
 - Rate and currency risk: limited
 - Derivatives: only for hedging rate and currency risks and with counterparties rated risk class 1 or 2
 - Liquidity buffer: 180 days net cash outflows covered, may be calibrated on extended maturity
 - **Soft bullet:** Extended maturity of up to 12 months possible with approval from the FSA following from the prospect of an imminent liquidity crisis which would likely not be otherwise solved
 - Overcollateralization: 5%
 - **Registry:** detailed requirements **Cover pool monitor**: in place, checks registry quarterly with annual reporting to the FSA
 - Investor reporting/transparency: required, details as in HTT
 - > SpaBol issues EU Covered Bonds (Premium) from July 2022

Rating and cover pool

Covered Bond Rating

SpareBank 1 Banks Aa3 Senior Ratings

SpaBol **Aaa** Moodys' Covered Bond Rating (since 2007)

- 5 notches of buffer in the Aaa rating
- Quality cover pool assets, legal framework, and market risk hedging policies determine the buffer

SpareBank 1 Boligkreditt Cover Pool Overview Q2 2024				
Assets	Norwegian private residential mortgages for all types of residences			
Number of mortgages	152,401 mortgages with a weighted average interest rate of 5.8%			
Average mortgage size	NOK 1.842 mill (apprx. EUR 170,000)			
Total balance mortgages	NOK 281 bn			
Weighted average LTV	53.5%			
Cover pool consists of	NOK 311 bn; Residential mortgages 94.5%, liquid assets 5.5%			

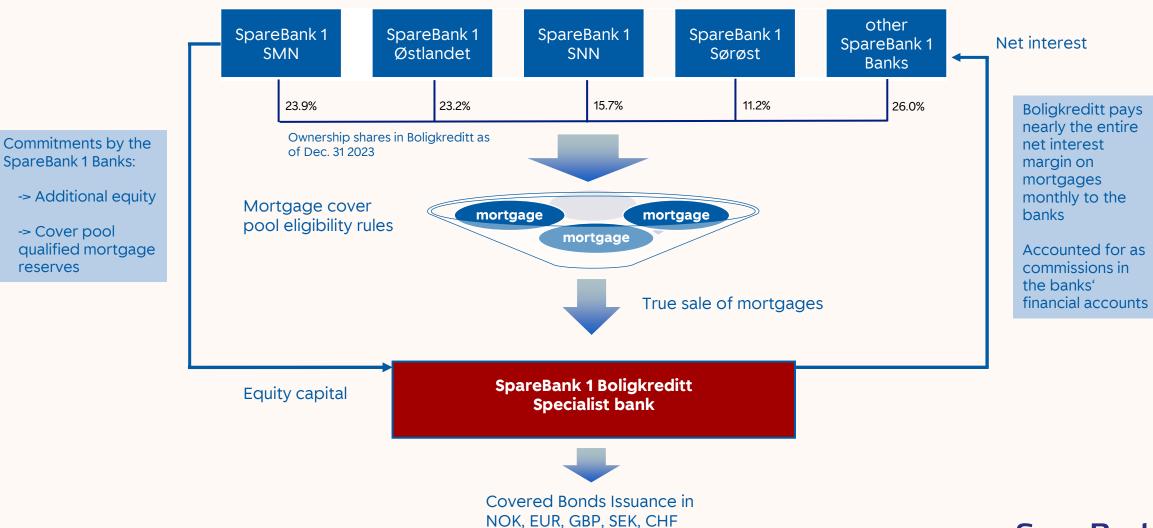

SpareBank 1 Banks:

-> Cover pool

reserves

Structure and mortgage loans transfer

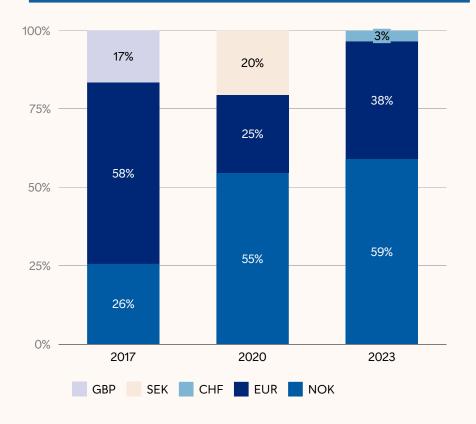

SPAREBANK 1 BOLIGKREDITT

Cover pool development

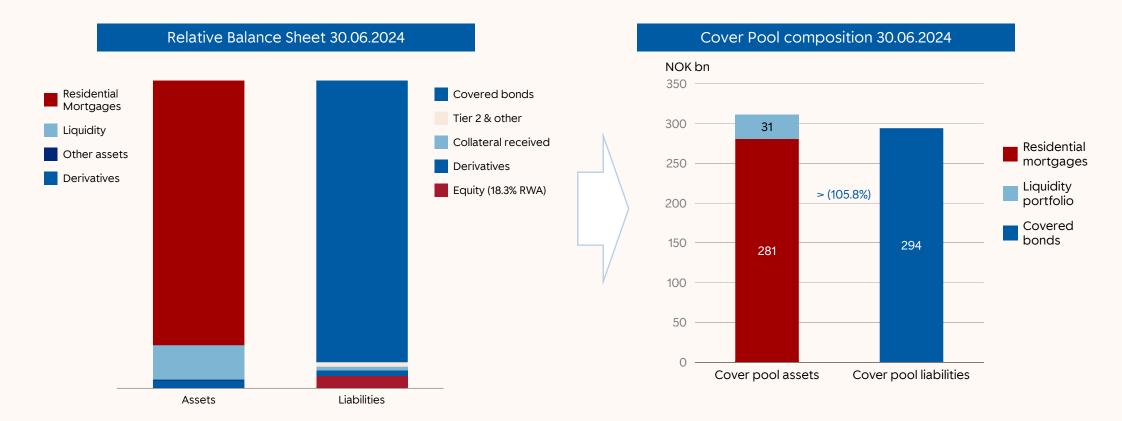

SpaBol annually issued covered bonds, by currency

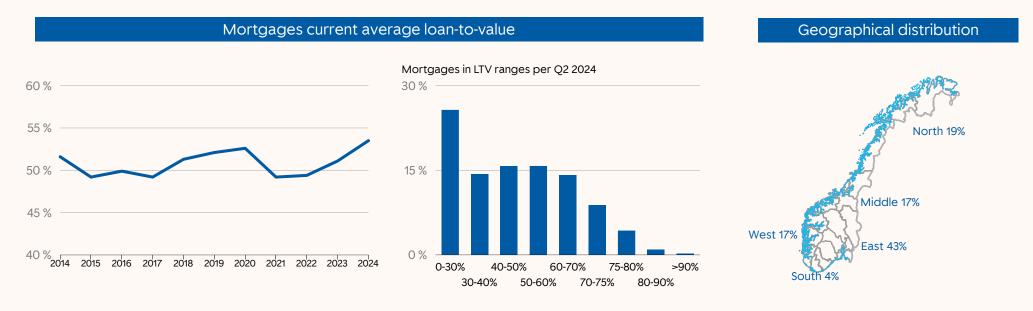

Balance sheet and cover pool

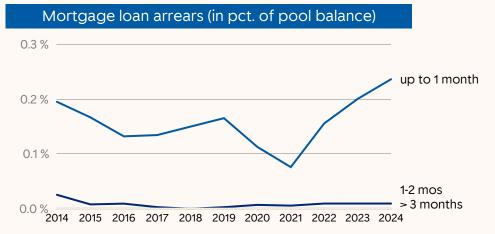

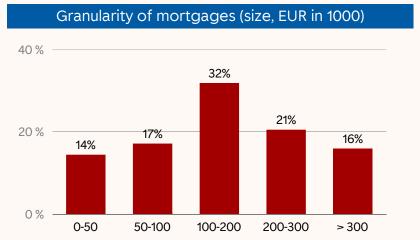

- SpaBol issues **European Covered Bonds (Premium)** in accordance with CRR Art. 129:
 - Liquid assets cover **180 days of maturities** and planned outflows. Liquidity also include collateral from swap counterparties
 - Issued covered bonds are **Soft-bullet with objective triggers**
 - The regulatory requirement for **overcollateralization** is 5% (from July 2022), and Moody's requirement is 0%
 - Derivatives fully hedge all FX and interest rate on issued covered bonds

Cover pool mortgages of high quality

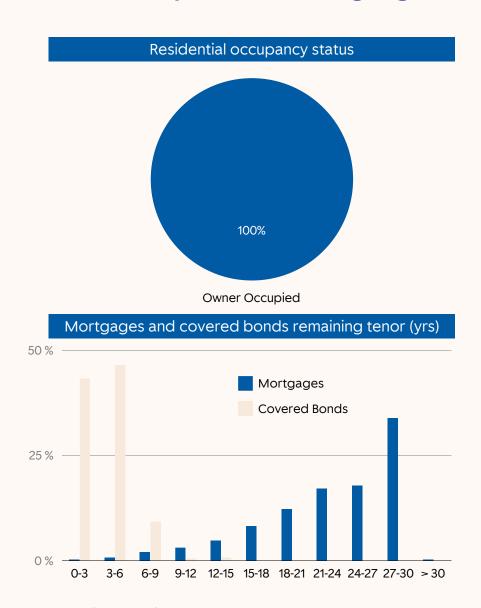

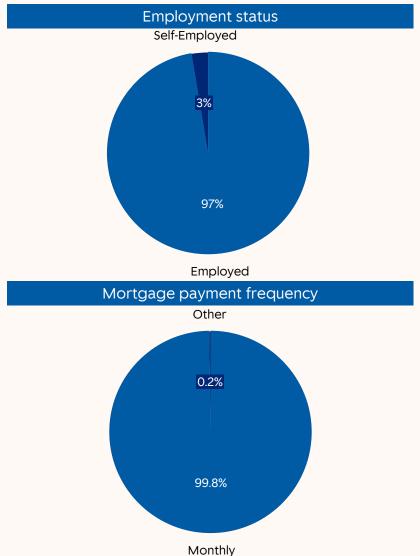

Further cover pool mortgage statistics

Stress testing the cover pool – real estate valuation declines

- In a scenario with declining real estate valuations, an increasing share of mortgages above the 75% legal limit become ineligible as cover assets
- Accordingly, mortgages need to be replaced, this is the 'required top-up' in the chart
- Parts of the mortgages in the highest LTV brackets needs replacing as house prices decline
- The SpareBank 1 mortgage reserve requirement calls for each bank to have non-zero, cover pool qualified, mortgage reserves after a 30% price decline scenario
- The qualified reserve mortgages (red bars) decline as their LTV increase and as the top-up is provided to the cover pool
- The w.a. pool LTV shown in the chart is prior to the top-up, only considering the price declines based on the current pool mortgage balance

RESIDENTIAL REAL ESTATE MARKET

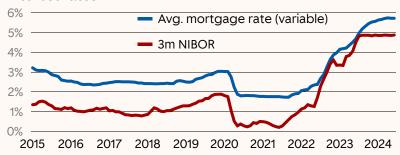

Overview and development

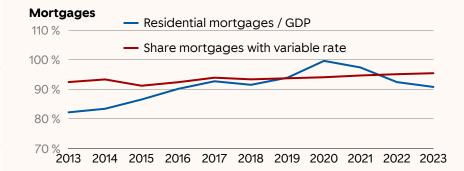

MORTGAGE MARKET	 Total size approximately NOK 3,800 billion 4Q 2023 (€350 bn) Private banks are the dominant suppliers of mortgages Scheduled repayment mortgages: ca.85% Typical maturity: 25 years First priority security market, thorough documentation
HOME OWNERSHIP	 Over 82% of household's owner occupied Between 50 and 60% are detached one-family houses
SOCIAL SAFETY	Unemployment benefits represents ca 60% of salary for 2 years
PERSONAL LIABILITY	 Borrowers are personally liable for their debt Swift foreclosure regime upon non-payment Transparent information about borrowers (national debt registry)
MORTGAGE MARKET REGULATION	 Loan to value: 85% (75% legal limit for cover pool) Flexible repayment mortgages: max 60% LTV 3% mortgage interest rate increase as stress test (prior 2023; 5%) Maximum 5x debt / gross income for borrowers Repayment minimum 2.5% p.a. when LTV > 60% Exemptions 10% / 8% for Oslo
INTEREST PAYMENTS	 95% of mortgages are variable rate Interest rates can be reset at the banks's discretion, by giving the debtor 6 weeks' notice
TAX	 22% of interest paid is tax deductible (equal to the basic rate of tax) Owner occupied residence at 25% of market value for wealth tax

12 month credit growth rate household sector

Interest rates

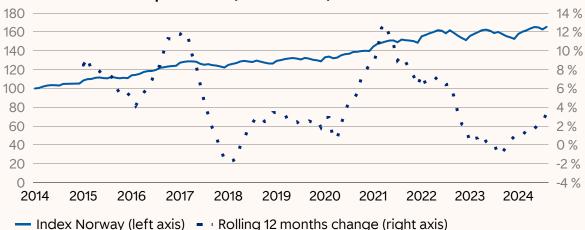

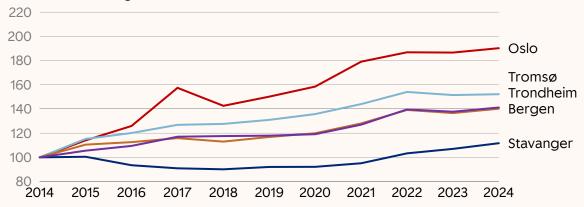

RESIDENTIAL REAL ESTATE MARKET

Price development

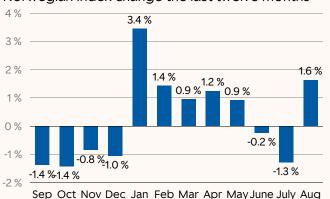

Residential real estate price index (Jan. 2014=100)

Indexes of the largest cities (Jan. 2014=100)

Norwegian index change the last twelve months

Norwegian index change last years

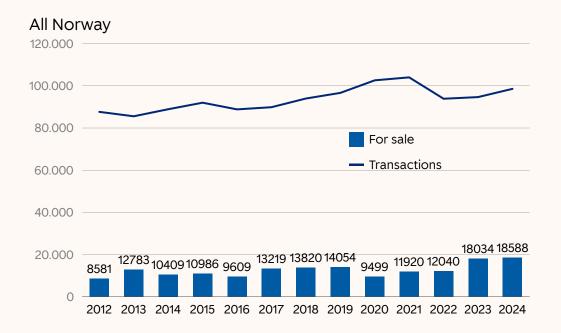

- Regulatory rules for lending to households apply
- The market has shown strength through the Corona crisis, due to lower interest rates
- Drivers are population growth and new construction, urbanization, income growth and the jobs market and interest rates

RESIDENTIAL REAL ESTATE MARKET

Transactions and inventory

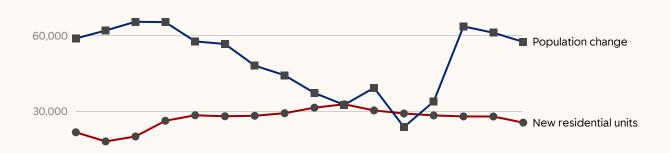

- The charts display the number of transactions of residential units
 - Transactions: sum over the last twelve months
 - For sale: cumulative an unsold unit offered for sale is counted for 180 days

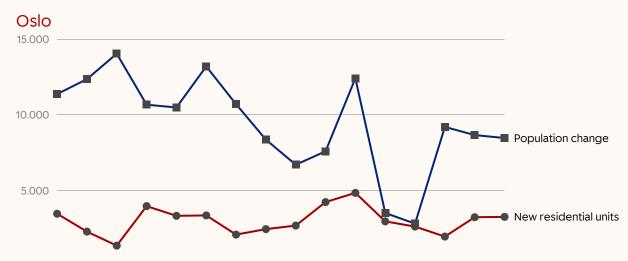

RESIDENTIAL REAL ESTATE MARKET

New builds and population change

2009 2010 2011 2012 2013 2014 2015 2016 2017 2018 2019 2020 2021 2022 2023 2024

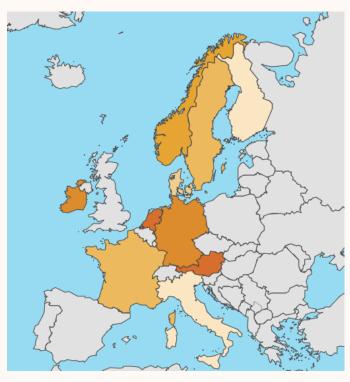

02009 2010 2011 2012 2013 2014 2015 2016 2017 2018 2019 2020 2021 2022 2023 2024

- Population increases are mainly driven by immigration
- New construction is low in comparison to the requirement, driving prices in central locations
- The relatively low new builds influences the pricing on the market for used homes upwards

Price development international comparison

RESIDENTIAL REAL ESTATE MARKET

Affordability

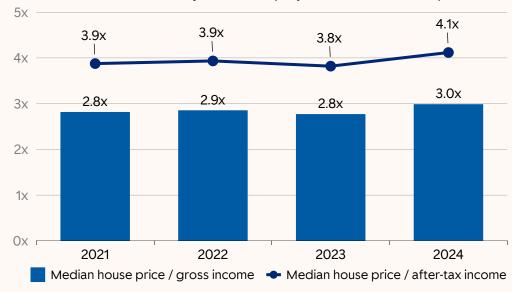

Adjusted real estate price index (Jan 2010=100)

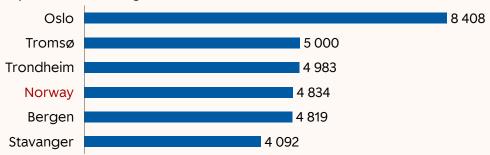

— House Price Index ••• Inflation adjusted — Adj. for after-tax household inc.

- Average house prices for Norway, as adjusted by HH after-tax income have increased since 2010, but remained flat since 2016/2017.
- Drivers of the increase is primarily the price development in Oslo, but also new building standards

Median value house to family income (w/projected income development)

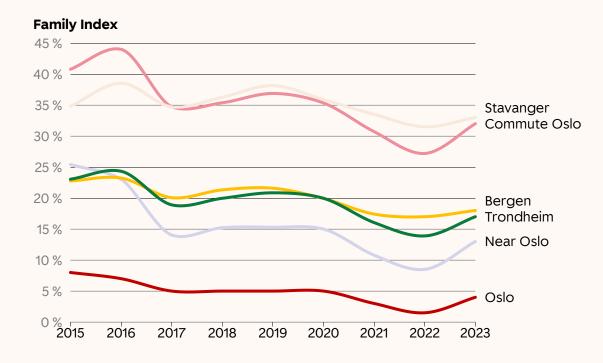

Affordability

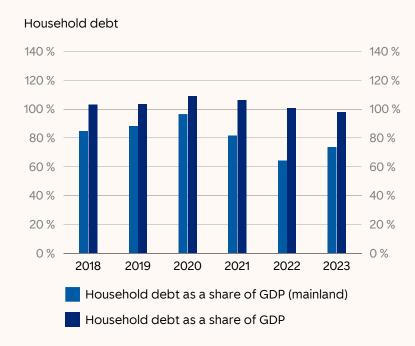

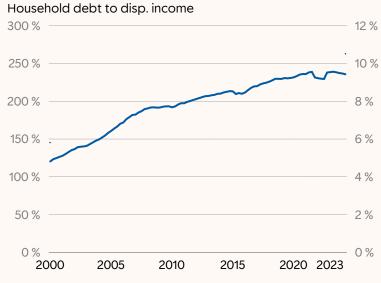

- The Family index shows which share of residential units are offered for sale that are affordable for a "standard" family
- It is based on a "normal" working household income with children and current mortgage market lending regulations
- Oslo has very few possibilities, but Commute Oslo is 30-40 min train commute from the city centre
- From 2023 the regulatory interest stress test is reduced, allowing for more purchasing possibilities

RESIDENTIAL REAL ESTATE MARKET

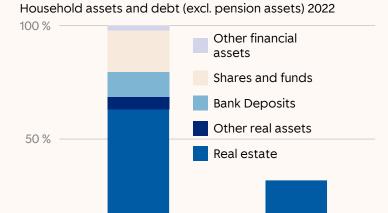

Household Sector Debt

···· Interest / after-tax income (right axis)

0 %

Assets do not include any pension claims

Assets

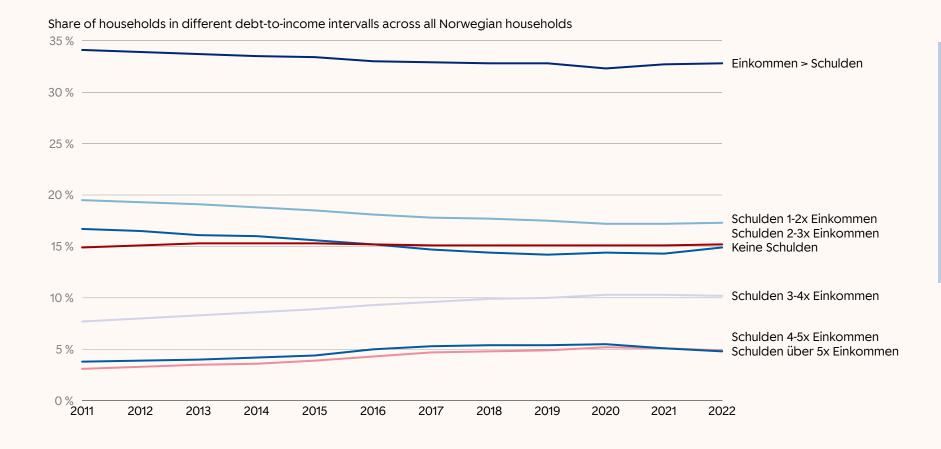

Liabilities

^{*} Disposable income is after tax and interest payments

RESIDENTIAL REAL ESTATE MARKET

Household Sector Debt

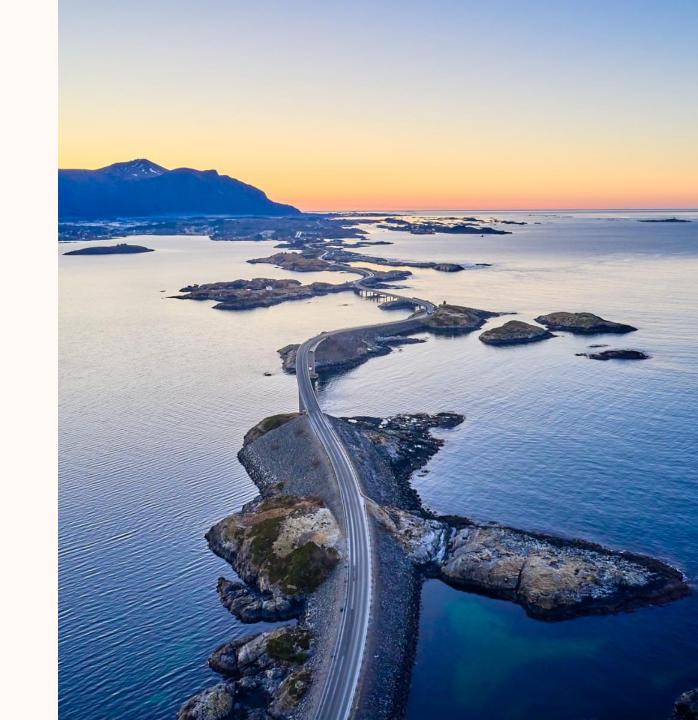

- In 2022 households
 without debt and debt
 income grew from
 2021
- Also in 2022, the share of highly indebted households declined
- This data is updated annually in December for the previous year

RoE	14.4 %	16.4 %	11.3 %	15.3 %	10.2 %	11.0 %	15.8 %

Notes

- 1. Covered bonds are issued through the Allliance's banks SpareBank 1 Boligkreditt and SpareBank 1 Naeringskreditt.
 The exception is SR bank, which uses its own issuer.
- 2. NPL means loans in Stage 3, IFRS 9, which include payment defaulted and loans at risk of default
- 3. The ratios in the All other SB1 banks column are weighted averages

SpareBank 1 Banks equity total return

Results of the regional savings banks (SpareBank 1 Alliance banks) performance due to:

- Continued improvements in cost efficiencies (low cost to income)
 - Fewer bank branch employees, more customer interaction via technology
 - Number of bank physical branch offices reduced
 - Saving banks are consolidating
- No expansion or failed expansions outside of Norway
- Well capitalized banks
 - Pursuing core business
 - Offering full palate of financial services to the customer base
 - Sufficient capacity to cover potential losses – and low actual losses
- A strong Norwegian economy with credit growth, low bank losses and increased asset (real estate) values

SpareBank 1 Boligkreditt Green Bond Rating

ISS - Oekom Green Bond Rating

Strengths and Weaknesses

- + clear and conclusive eligibility criteria
- + comprehensive external assurance of bond framework
- + reasonable structures for the management of proceeds
- + clear sustainability strategy of the issuer
- no comprehensive approach regarding specific social risks of residential mortgages

Moody's Green Bond Rating

ESG in the SpareBank 1 banks

- ESG is an important strategic focus in the banks' business, driven by dedicated teams and is inclusive in the credit modelling and lending decision process
- SpareBank 1 Banks are foundational members of the UN Environmental Programme Principles of Responsible banking (which implements the Paris Agreement in the financial industry) and of the UN Global Compact (which targets the overall UN sustainability goals)
- SpareBank 1 Banks have created climate accounts (Scope 1-3) and have set goals
- SpareBank 1 banks are offering green mortgages to customers, are issuing green senior bonds and are working with SpaBol regarding green covered bonds

Green covered bonds: selection of Norwegian mortgages

	Top 15% energy efficient	EU Taxonomy	Portfolio (NOK)	
1. Most recent building codes (> TEK 10, correlates with EPC A and B)		•	35 Mrd.	•
2. EPC A and B from prior years (<tek 10)<="" td=""><td></td><td>©</td><td>5.6 Mrd.</td><td>•</td></tek>		©	5.6 Mrd.	•
3. Refurbished buildings (30% energy efficiency improvement)	×	•		
4. NZEB new buidling code from 2022		\otimes		
5. 10% better energy efficiency than the NZEB buidling code (delivered energy*)		⊘		
6. Conventional (non-green) mortgages	×	8	204 Mrd.	

The Near Zero Energy Building (NZEB) concept has just been established in Norway (Feb 2023)

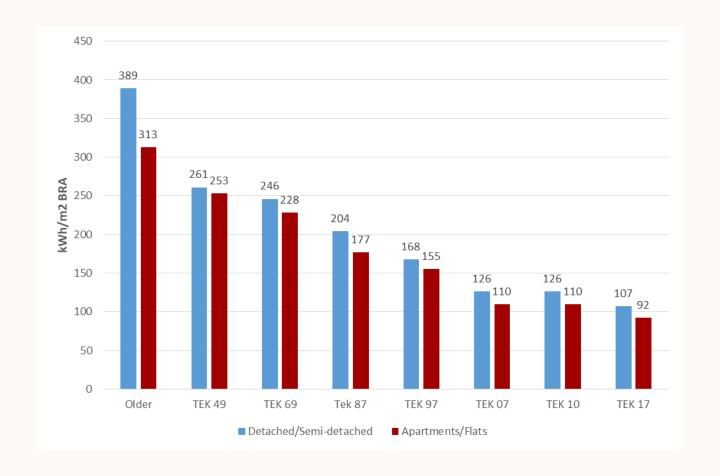

SpaBol expects to implement this new selection approach (NZEB -10%) as part of an updated Green Bond Framework, which is expected to be concluded later in 2023

^{*} Corresponds to the EU Taxonomie from 2020. Could be possible to achieve and calculate (with renewable energy playing a role) in the context of the new final building code

Building codes and energy use

Objective	EUT Criteria		SpaBol Green Bond	Alignment	
uo	Technical Screening Criteria	i. Built <2021: EPC A or Top 15% approach ii. Built ≥2021: NZEB −10%	Eligibility criteria = Top 15% approach (via Building code / EPC label)	Partial Alignment	
1. Mitigation	Do No Significant Harm	 i. Building not directly related to fossil fuels industry ii. Built <2021: At least EPC C or within Top 30% iii. Built ≥2021: At least NZEB standard & EPC label in place 	i. No relation to fossil fuels iii. All Norwegian new builds have EPC labels	 Built <2021: 94.9% (Aligned) Built ≥2021: 5.1% (Out of scope) ¹ 	
2. Adaptation	Do No Significant Harm	i. Reducing material physical climate risks ii. Supporting system adaptation iii. Monitoring adaptation results	 i. Green buildings are aligned with Norwegian environmental legislations via the building code, where an environmental risk assessment is conducted at the planning stage and relevant measures are applied to reduce identified risks ii. Green buildings do not increase the risks of adverse climate impact on other stakeholders and align with national adaptation efforts iii. Adaptation results can be monitored and measured TEK10 & TEK17 Building Code Regulation (= SpaBol Green Bond Criteria) ensures new buildings are not prone to significant Physical Climate Risks e.g. Flooding; Storm Surges, Landslides. 	Aligned	
1. Mitigation 2. Adaptation	Minimum Social Safeguards	i. OECD Guidelines on Multinational Enterprises ii. UN Guiding Principles on Business and Human Rights iii. ILO Core Labour Conventions	 i. Not applicable. SpaBol operates only in Norway and not overseas ii. Norway applies a <u>National Action Plan</u> for the implementation of the UN Guiding Principles. In addition, SpaBol's due diligence processes ensures alignment and compliance iii. All 8 ILO Core Labour Conventions are enshrined in <u>Norwegian law</u> 	Aligned	
				Green Bond Portfolio Alignment: 94.9% aligned	

Building stock and green share thereof (newbuilds from 2012)

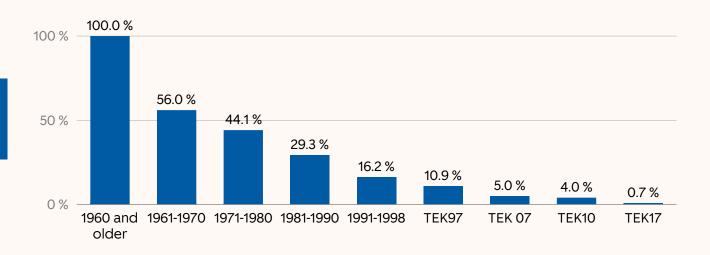

- The light blue line shows that 10% of properties in Norway where constructed from 2012
- These 10% of residences make up most of the universe for the green portfolio (built from 2012)
- Additionally A and B EPC properties constructed before 2012
- In total, the green universe is <15% of all residential properties

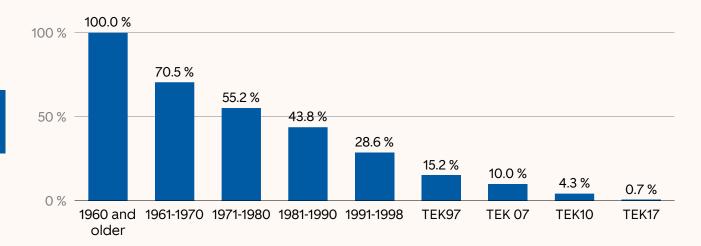

Building codes, energy, CO₂ emissions

Cumulative share of residential energy heating demand from building year

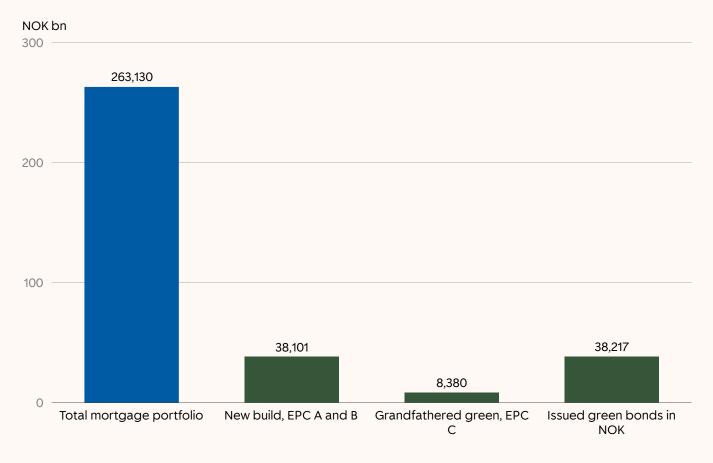

Cumulative share of Co2 of the residential energy demand

- The SpaBol green
 Portfolio eligible
 building stock is 10%
 of dwellings (previous page)
- That 10%
 corresponds to 4.0%
 of energy use, which
 is the cumulative
 energy use of all
 properties
 constructed from TEK
 10 and onwards in the
 top chart
- This corresponds to 4.3% of residential estimated CO2 emissions in the bottom chart

SpaBol green mortgages portfolio

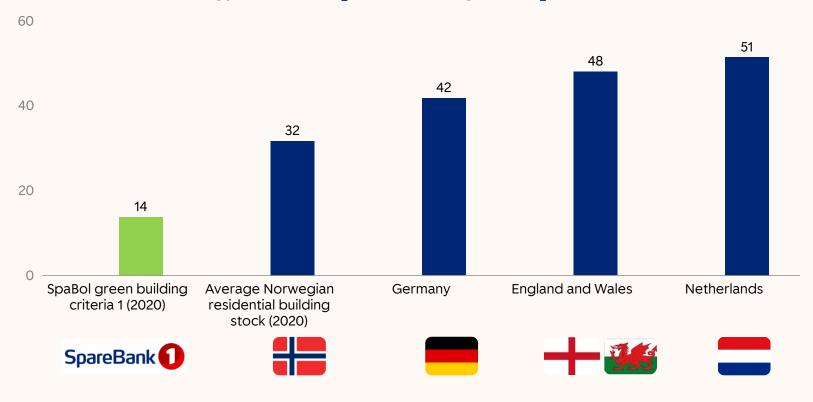

- Green volume of approx. NOK 47 bn.
- Overall portfolio 263 bn, Green Ratio 17.4%
- EUR 2.75 bn and SEK 8.5 bn green covered bonds have been issued

- Building years 2009-2011 and EPC C were categorized as green until June 2021 («grandfathered volume»)
- Building years 2021 and 2022 are also according to top 15%, NZEB-10% not yet available/implemented

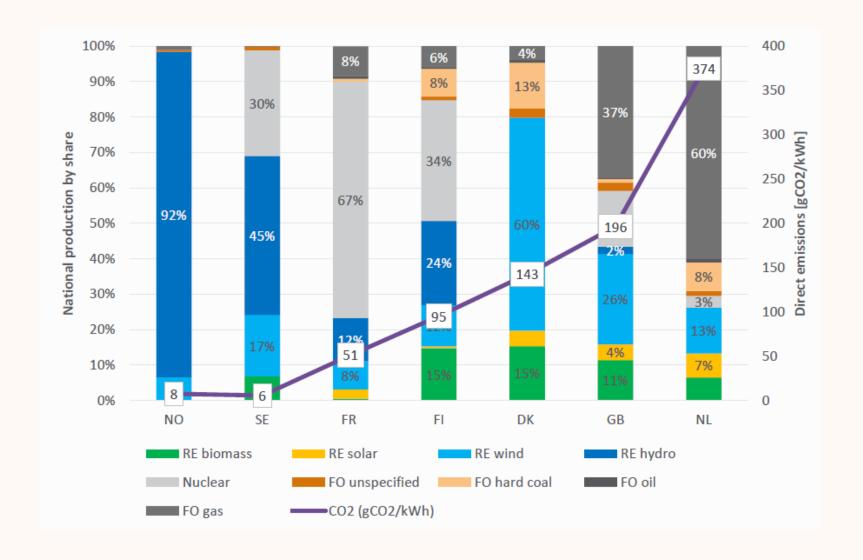

Green bond impact

Calculated energy related CO₂ emissions (kgCO2/m₂)

Green bond impact – national electricity production mix

New green mortgages offered

Increase energy efficiency in existing buildings

Refurbishment of older buildings

Construction of new energy effficent buildings (EPC A and B)

	Green Mortgage Terms	Interest savings
SpareBank 1 banks	 Mortgages financing A and B EPC labels residential properties always qualify as a green mortgages Project criteria overlaps with ENOVA (gov energy efficiency agency) criteria for increasing energy efficiency measures 	Generally / average 40 bps savings on a green vs. conventional mortgage (may range from 25 to 50 bps in individual SpareBank 1 banks)
