SPAREBANK 1 ALLIANCE BANKS

SpareBank 1 Alliance Banks

– local presence and national integration

The Alliance was founded in 1996 and consists today of 12 banks

SPAREBANK 1 ALLIANCE BANKS

Banks in Norway

Savings banks (Sparebank)
78 Banks, incl. 3 alliances/groups and independent banks

Commercial banks: larger Nordic banking Groups but also smaller banks

- Banks compete for the same customer base, but with larger commercial banks focusing on larger corporations
- A savings bank's strength sits in its local or regional market and in the household and SME sector

Banking sector relative size, (2024)

Largest banks by lending volume (2023)

Norwegian savings banks – characteristics

- Norway’s first type of bank, founded in the 1820ies, retains local and regional character today
- Sparebanks are universal banks, but only domestic lending, focus on residential mortgage lending
- Savings banks are self-owned institutions, as well as investor owned
- All larger savings banks’ equity (capital certificates) are listed on the Oslo stock exchange
- Share of profits provided as gift annually (society dividend) based on the bank’s self-owned share of capital

10 largest Sparebanks, NOK bn total assets, columns in blue are SpareBank 1 Alliance banks

MACROECONOMIC OVERVIEW

GDP Change

GDP change and central bank policy rate

GDP quarterly change

Indexes, seasonally adjusted, fixed prices

MACROECONOMIC OVERVIEW

Outlook Indicators

Purchasing Manager Index

The PMI manufacturing index reflects current production, new orders, employment, delivery time and goods in storage

Consumer Confidence

Consumer confidence reflects quarterly household financial expectations (for themselves and the country) over the next 12 months

Central Bank Business Survey

The Norwegian CB business survey reflects activity and expectations ahead. Labour tightness is share of companies reporting this. Other indicators are per cent change.

MACROECONOMIC OVERVIEW

Energy

Norwegian oil and gas resources

Norwegian production in million Sm³ Oil equivalents

Renewable Energy Export

MACROECONOMIC OVERVIEW

GDP Components

GDP by expenditure, 2023

Per cent change in GDP components and forecast

- Oil and gas investments at 15-20% of all investments have large swings which are related to energy markets dynamics and project pipelines as well as special sector tax rules. Investments are growing following the European energy crisis
- Gross capital formation in Norway is relatively high; important for productivity growth potential

Norwegian Exchange listed companies and employees by sector

Industries of firms listed on the Oslo exchange (NOK bn market value)

Employees in Norway by main sector (1000 persons)

MACROECONOMIC OVERVIEW

Labour Market

Registered unemployment

Long-term survey unemployment rate

The peak in the survey unemployment rate happened during the recession of the early 1990ies, while the oil price decline in 2014-16 and the covid pandemic caused unemployment peaks

Productivity and wages

Labour productivity; output per hour worked, index

Real wages Norway, index 2010=100

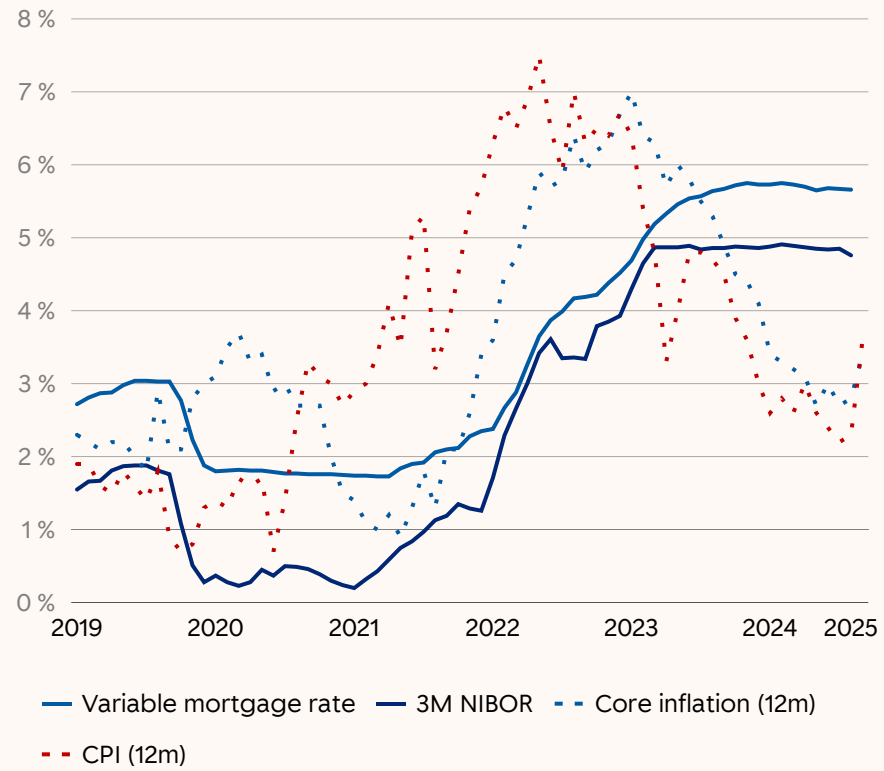

GDP per capita in constant USD at PPP

Interest rates, inflation and bank sector losses

Interest rates and inflation

Loan provisions and losses aggregated banking sector

Part years are annualized

Household sector income, savings and mortgage affordability

Aggregate Household income, consumption and savings

— Disposable income — Consumption — Savings rate

- Savings is the difference in disposable income and consumption
- in addition occupational pension savings not in disp. income

Mortgage affordability

••• Share of net disposable income for mortgage servicing (rhs)
 — Average net disposable income (after tax and cost of necessities) (lhs)
 — Cost of necessities (SIFO model family of 4) (lhs)

- Mortgage servicing is modelled based on 85% LTV of the median valued house, 30 years full repayment, with average annual variable mortgage rates

MACROECONOMIC OVERVIEW

Sovereign Wealth Fund

The spending rule: The gov. budget's non-oil & gas fiscal deficit may be max. 3% of the fund's size – financed by the fund

Fund withdrawals, as a percentage of fund size

The combined government surplus + fund cash income is high due to recent high energy prices

(Budget surplus/deficit + fund income) / GDP

Covered Bonds in the Norwegian context

Covered bonds and government debt outstanding relative shares

Bonds outstanding related to mainland GDP

EU harmonisation of covered bonds

EU Regulatory Framework

Covered Bonds Directive

Directive (EU) 2019/2162

& Capital Requirements Directive

Art. 129 defines preferential risk weights and eligible assets for Covered Bonds

BRRD

Covered Bonds are excluded from bail in

EMIR

The regulation define specific treatment of cover pool derivatives

LCR Delegated Act

Defines Covered Bonds as liquid assets Level 1 or 2

Solvency II

Delegated Act – capital requirements for insurance investments in Covered Bonds

Norwegian Covered Bonds Framework

- **All of the EU Regulatory Framework in effect**
- The Covered Bond Directive (harmonization Directive) became effective in Norway from July 2022
- Key points from the Norwegian harmonised Covered Bond framework:
 - **Cover Pool:** CRR Art. 129 defines eligible assets. In practice cover pools with only residential mortgages (separate public sector and commercial pools exist)
 - **Asset valuation:** maximum prudent market value, documented individual assessment by independent person or by statistical models (for residential real estate) **Max LTV:** up to 80%
 - **Rate and currency risk:** limited
 - **Derivatives:** only for hedging rate and currency risks
 - **Liquidity buffer:** 180 days net cash outflows covered
 - **Soft bullet:** Extended maturity of up to 12 months possible with approval from the FSA following from the prospect of an imminent liquidity crisis which would likely not be otherwise solved
 - **Overcollateralization:** 5%
 - **Registry:** detailed requirements **Cover pool monitor:** in place, checks registry quarterly with annual reporting to the FSA
 - **Investor reporting/transparency:** required, details as in HTT
 - **SpaBol issues EU Covered Bonds (Premium)** from July 2022

Rating and cover pool

Covered Bond Rating

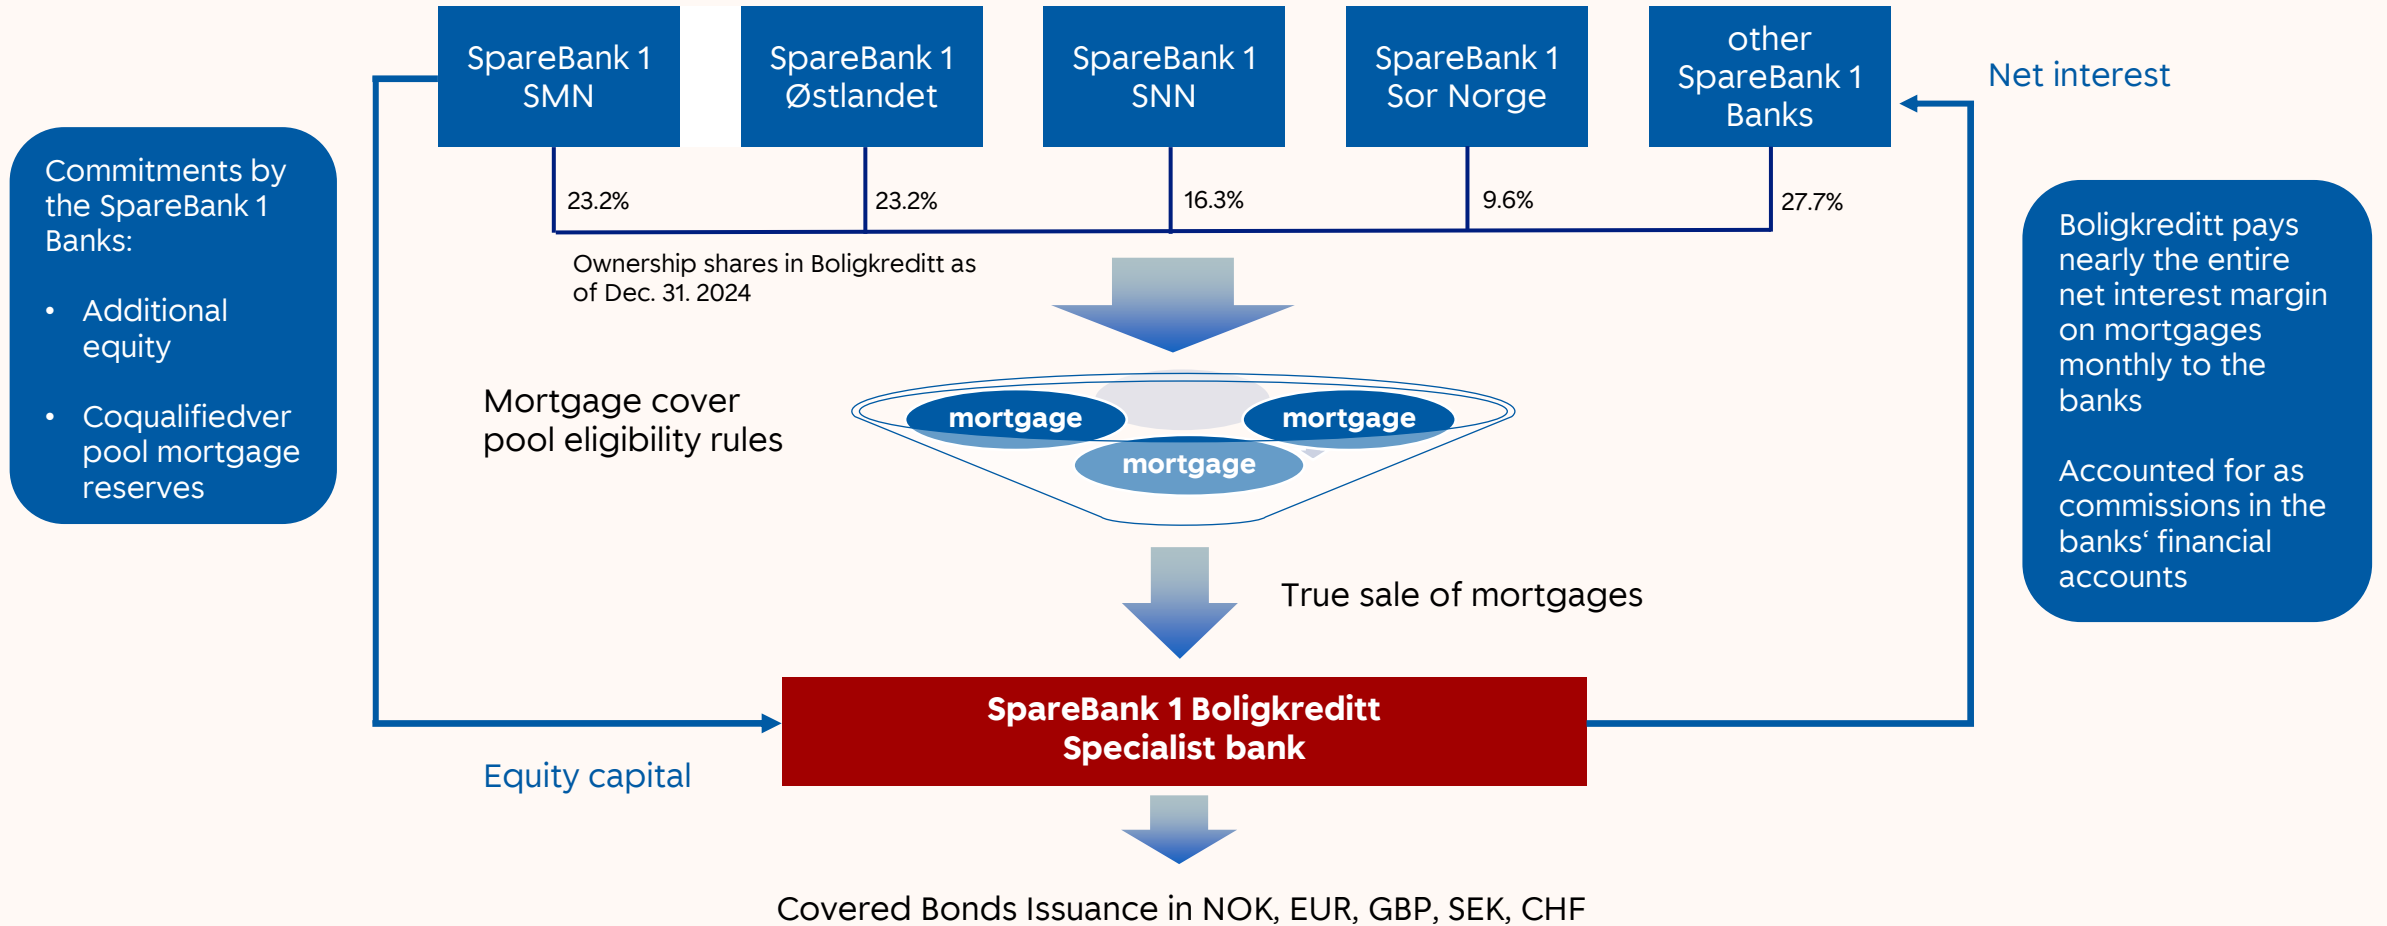

- 5 notches of buffer in the Aaa rating
- Quality cover pool assets, legal framework, and market risk hedging policies determine the buffer

SpareBank 1 Boligkreditt Cover Pool Overview Q4 2024

Assets	Norwegian private residential mortgages for all types of residences
Number of mortgages	155,888 mortgages with a weighted average interest rate of 5.7%
Average mortgage size	NOK 1.879 mill (apprx. EUR 170,000)
Total balance mortgages	NOK 293 bn
Weighted average LTV	53.4%
Cover pool consists of	NOK 321 bn; Residential mortgages 91.2%, liquid assets 8.8%

Structure and mortgage loans transfer

Pre-tax operating result	796,127	619,294
Taxes	(182,093)	(140,025)
Profit/(loss) for the period	614,034	479,269

Stress testing the cover pool – real estate valuation declines

- In a scenario with declining real estate valuations, an increasing share of mortgages above the 75% legal limit become ineligible as cover assets
- Accordingly, mortgages need to be replaced, this is the 'required top-up' in the chart
- Parts of the mortgages in the highest LTV brackets needs replacing as house prices decline
- The SpareBank 1 mortgage reserve requirement calls for each bank to have non-zero, cover pool qualified, mortgage reserves after a 30% price decline scenario
- The qualified reserve mortgages (red bars) decline as their LTV increase and as the top-up is provided to the cover pool
- The w.a. pool LTV shown in the chart is prior to the top-up, only considering the price declines based on the current pool mortgage balance

Table of contents

Overview and development

Mortgage market

- Total size approximately NOK 3,900 billion 4Q 2024 (€350 bn), 90% of GDP
- Private banks are the dominant suppliers of mortgages
- Scheduled repayment mortgages: ca.85% (
- Maturity for repayment, typical: 25-30 years
- First priority security market, thorough documentation

Home ownership

- Over 82% of household's owner occupied
- Between 50 and 60% are detached one-family houses

Social safety

- Unemployment benefits represents ca 60% of salary for 2 years

Personal liability

- Borrowers are personally liable for their debt
- Swift foreclosure regime upon non-payment
- Transparent information about borrowers (national debt registry)

Mortgage market regulation

- Maximum loan to value: 90% (from 2025, 85% prior)
- Flexible repayment mortgages: max 60% LTV
- 3% mortgage interest rate increase as stress test (prior 2023: 5%)
- Maximum 5x debt / gross income for borrowers
- Repayment minimum 2.5% p.a. when LTV > 60%
- Exemptions 10% / 8% for Oslo

Interest payments

- 95% of mortgages are variable rate
- Interest rates can be reset at the banks's discretion, by giving the debtor 6 weeks' notice

Tax

- 22% of interest paid is tax deductible (equal to the basic rate of tax)
- Owner occupied residence at 25% of market value for wealth tax

12 month credit growth rate household sector

Interest rates

Mortgages

RESIDENTIAL REAL ESTATE MARKET

Price development

Residential real estate price index (Jan. 2014=100)

Indexes of the largest cities (Jan. 2014=100)

Norwegian index change the last twelve months

Norwegian index change last years

- Regulatory rules for lending to households apply
- The market has shown strength through the Corona crisis, due to lower interest rates
- Drivers are population growth and new construction, urbanization, income growth and the jobs market and interest rates

Transactions and inventory

- The charts display the number of transactions of residential units
 - Transactions: sum over the last twelve months
 - For sale: cumulative – an unsold unit offered for sale is counted for 180 days

New builds and population change

All Norway

Oslo

Indexes, 2022=100, all Norway, annual averages

- Population increases are mainly driven by immigration
- New construction is low in comparison to the requirement, driving prices in central locations
- The relatively low new builds influences the pricing on the market for used homes upwards

Price development international comparison

RESIDENTIAL REAL ESTATE MARKET

Affordability

Adjusted real estate price index (Jan 2010=100)

Median value house to family income (w/projected income development)

Square meter average: EUR / m2

- Average house prices for Norway, as adjusted by HH after-tax income have increased since 2010, but remained flat since 2016/2017.
- Drivers of the real increase is primarily the price development in Oslo

RESIDENTIAL REAL ESTATE MARKET

Affordability

- The Family index shows which share of residential units are offered for sale that are affordable for a “standard” family
- It is based on a “normal” working household income with children and current mortgage market lending regulations
- Oslo has very few possibilities, but Commute Oslo is 30–40 min train commute from the city centre
- From 2023 the regulatory interest stress test is reduced, allowing for more purchasing possibilities

RESIDENTIAL REAL ESTATE MARKET

Household Sector Debt

* Disposable income is after tax and interest payments

Assets do not include any pension claims

Household Sector Debt

Share of households in different debt-to-income intervalls across all Norwegian households

- The share of highly indebted households are sinking in 2022 and 2023
- This data is updated annually in December for the previous year

Notes

1. Covered bonds are issued through the Alliance's banks SpareBank 1 Boligkreditt and SpareBank 1 Næringskreditt.

The exception is SR bank, which uses its own issuer.

2. NPL means loans in Stage 3, IFRS 9, which include payment defaulted and loans at risk of default

3. The ratios in the All other SB1 banks column are weighted averages

4. Alliance Aggregate includes the Alliance's Group and insurance company

SpareBank 1 Banks equity total return

Total return since 2001 (01.01.2001 = 100), dividend adjusted

Results of the regional savings banks (SpareBank 1 Alliance banks) performance due to:

- Continued improvements in cost efficiencies (low cost to income)
 - Fewer bank branch employees, more customer interaction via technology
 - Number of bank physical branch offices reduced
 - Saving banks are consolidating
- No expansion – or failed expansions – outside of Norway
- Well capitalized banks
 - Pursuing core business
 - Offering full palate of financial services to the customer base
 - Sufficient capacity to cover potential losses – and low actual losses
- A strong Norwegian economy with credit growth, low bank losses and increased asset (real estate) values

ESG in the SpareBank 1 banks

- ESG is an important strategic focus in the banks' business, driven by dedicated teams and is inclusive in the credit modelling and lending decision process
- SpareBank 1 Banks are foundational members of the **UN Environmental Programme Principles of Responsible banking** (which implements the Paris Agreement in the financial industry) and of the **UN Global Compact** (which targets the overall UN sustainability goals)
- SpareBank 1 Banks have created climate accounts (Scope 1-3) and have set goals
- SpareBank 1 banks are offering green mortgages to customers, are issuing green senior bonds and are working with SpaBol regarding green covered bonds

SpaBol green mortgages portfolio

- Green volume of approx. NOK 32.5 bn.
- Overall portfolio 293 bn, Green Ratio (mortgages only) 11.1%
- EUR 1.75 bn and SEK 8.5 bn green covered bonds are outstanding

- Building years 2009-2011 and EPC C were categorized as green until June 2021 («grandfathered volume»)
- January 2025: grandfathered volume removed (bond matured), green bond criteria are EU Taxonomy aligned

Green bond impact

Green bond impact – national electricity production mix
